

2018 TRYOUTS JUNE 16 + 17

CLUB PHILOSOPHY

FC Union believes in the development of soccer skills in all youth players. All of our club coaches are licensed, but more than that, we are very proud of our record of keeping the focus on the kids. That means creating a competitive environment where your child improves as a player while at the same time develops a love for the game and has fun. We are also very proud of all of our parents who embody this philosophy and represent the club in an exemplary manner. This perspective allows our teams to operate free from many issues and internal politics that can occur in youth soccer.
